Bill to Force Drunken Men to Tell Liquor's Source or Go to Jail 200 Days.

TOBACCO CRUSADE NEXT

Republicans at Albany to Reorganize Excise Bureau to Enforce Dry Laws.

Special Despatch to Tax Sun. Albany, Jan. 24.—Legislators who were in Albany to-day heard that Mrs. Ella A. Boole, State head of the W. C. T. U., has prepared for introduction in the Legislature a bill providing that after the Federal prohibition amendment goes into effect any ose found drunk who refuses to tell where he obtained the liquor shall be fined \$200 or he sentenced to 200 days in jail. Mrs. Boole was not in Albany, but other W. C. T. U. lenders said she had such a bill. Some of its provisions have been changed because her advisers thought them too strong.

In view of Mr. Boole's recent speeches against the use of tobacco and swearing legislators also are wondering if the prohibition campaign will be followed up by another forbidding smoking or chew-ing and using vile language. Mrs. Boole has expressed herself as favoring some action to curb the growing use of tobacco by the younger element, and has made several attacks on the use of cigarettes by young women.

Will Fight Mrs. Boole's Bill.

The wets, who were defeated in their fight against ratification of the Federal prohibition amendment yesterday, are determined that if any such bill as that hey hear Mrs. Boole is planning appears in the Legislature it will never see the light of day after being sent to commit-tee. The certainty that the Senate will ratify prohibition early next week after a caucus of the Republicans that is to be held Monday night does not afford the wets any pleasure

Some of the wets admitted to day that they intend to make a fight at this ses-sion of the Legislature to pass a law which will permit the manufacture and sale in this State of light wines and beer containing not more than 2 per cent. of

The Legislature will have the duty of enacting a definition of what constitutes "intoxicating liquors," which are banned by the new amendment, and "beverage urposes," for which the amendment tys liquor must not be manufactured, ald or possessed. Then will follow a fight on "concurrent power" of enforcing prohibition, and it is likely that the courts will have to decide whether this State can have a prohibition enforce-ment act which is less stringent than the Federal act that must be passed to put prohibition into effect.

Republican leaders of the Lesislature dorsement of Mrs. Dow unanimous.

30 STATES CERTIFY DRY RATIFICATION

Washington Has Received 2 Notices From California.

Washington, Jan. 24.—Of forty-two States which have ratified the Federal prohibition amendment formal notice of the action had been received from thirty at the State Department up to to-day. There has been no regularity in the form of notice or certification, but officials say, in spite of the importance attached to the matter in some State contro-versies, it is important only that the versies, it is important only that the separate taxes upon incomes, propert information reach the Department in authentic fashion.

From all the thirty States except Ohio and South Carolina notice has come through the Governor or the Secretary through the Governor or the Secretary of State. A copy of the Ohlo resolution was received without a letter of transmittal but bearing the original signatures of the President of the Senate and the Speaker of the House, with an indersement on the back by the Secretary of State. The Governor's secretary sent the notice from South Carolina.

Examination of the Department's files to-day disclosed that two notices had been received from California. The first

When Horough President Dow-ling opened him for cleaning the windows in the buildings of his jurisdiction in Manhattan, exclusive of the Municipal Building, he found prices had advanced about 40 per cent. Last year this work was done every two weeks for \$7,185. This year the lowest bid for cleaning the same windows once in every four weeks was \$13,848. President Dowling rebelled and got authority to hire six window washers. He estimates the work will be done for practically the same amount as last year. 15 Reasons

Not so the 38,000 trustees, individuals and corporate guaranteed mortgages of this Company. Not one of them has had to mark down his principal or had to wait for his interest or has had to buy in the real estate at foreclosure sale.

We believe that for a long time to come, and until New York real estate in general takes on a very different aspect, prudent people will decline to take unguaranteed mortgages or to risk buying even high class bonds, but will make such a demand for guaranteed mortgages that we cannot supply their wants.

This means more money brought into the real estate market and better times, we believe, for the real estate owner.

Albany, Jan. 24.—The Senate Finance Committee, which so far has falled to act on Gov.
